

Advanced ImageJ / Fiji

Workshop

18th May

10 a.m.

This workshop is open to everyone who already has used ImageJ / Fiji. You need to have work with ImageJ in a basic manner already, this is not an introductory course.

You will learn:

- Complete workflow
- Extraction from raw image data, stitching, tiles
- Background subtraction, attenuation
- Export e.g. movies or animated stacks
- Co-localisation analysis

A fee of 60 € applies to all participants. A 50 % discount will be given to members of groups that have a microscope within the OICE pool.

Maximum number of participants 12. Work shop location is OICE and duration is about three to four hours.

**Bring your own notebook. Benjamin Schmid will give information on how to install latest ImageJ / Fiji version beforehand, so you can start right away.
Please contact him before the workshop!**

Deadline: May 15th, 2017!
