

Advanced Live Organoid Imaging Workshop

10th – 12th October, 2022

This practical workshop is open to users who have proven practical expertise using laser microscopes. (Basic Imaging Workshop certificate preferred)

You will learn to measure the organoid barrier integrity of living small intestinal mouse organoids. You will learn about the differences of **confocal and widefield microscopy**. The application of our **Spinning Disc and Cell Discoverer** will help you to understand the physical pro and contra of the respective techniques.

Maximum number 12 participants.

Workshop Fee: 240 €

Day 1: Theoretical seminars and sample preparation. All participants.

Day 2 or 3: Individual groups of up to 3 users will perform hands-on sessions.

Deadline: Friday September 30st, 2022!
