

Advanced Monolayer Live Cell Imaging Workshop

July 26th – July 28th, 2021

This practical workshop is open to users who have proven practical expertise using laser microscopes. (Basic Imaging Workshop certificate preferred)

You will learn how to perform live cell stainings and transfection in NHDF and Hela monolayer cellcultures. Furthermore you will carry out a wound healing and cell migration scratch assay. You will use Zeiss Celldiscoverer 7, Leica DMI8 TIRF and Thunder microscopes.

Maximum number 8 participants
Workshop Fee: 240 €

Day 1 to 3: Theoretical seminars and sample preparation for all participants.
Hands-on sessions at the microscopes with individual groups of max. 4 participants.

Deadline: Friday July 23rd, 2021!
